General Note 1: Only items with finite Shelf Lives/Storage temperatures are included.

General Note 2: Shelf Lives are from the date of manufacture and in an un-opened condition.

Note 3: REf Loctite 4105 (Black-Tak) - Qualifications tests conducted on Loctite 4105 (Black-Tak) have qualified that the products shelf life can safely be extended by a further 12 months. This extension in conjunction with the manufacturers shelf life now gives a total shelf life of 18 months from the date of manufacturer. If the product is opened/used within the manufacturers expiry date the shelf life reverts back to the manufactures shelf life as marked on the product (i.e. reverts back to a 6 month shelf life). If the product is opened/used after the manufacturers expiry date but within the 18 month extended shelf life the product should be replaced. To calculate the 18 month extended shelf life, add 12 months to the expiry dated indicated on the product.

Note 4: Ref: Silicone Self Amalgamating Tape - Qualifications tests conducted on Silicone Self Amalgamating Tape have qualified that the products shelf life can safely be extended by a further 12 months. This extension in conjunction with the manufacturers shelf life now gives a total shelf life of 18 months. To calculate the 18 month extended shelf life, add 12 months to the expiry dated indicated on the product.

Note 5: Ref: Rework And DCA Flux RP11RWF - Although the manufacturers shelf life is 6 months it can be extended to 24 months provided that the adhesive does not show signs of crystalization.

Note 6: This kit is for KCS OS H2, KCS OS TUBE & OCC SC-100 cables.

Note 7: Qualification tests conducted on the fibre restraints have determined that the shelf life can safely be extended by a further 24 months. This extension in conjunction with the manufacturers shelf life now gives a total shelf life of 33 months from the date of manufacture.

Note 8: Although the nominal shelf life is 24 months, the preferred shelf life is 12 months.

Note 9: The shelf life is 3 to 4 months when opened.
