

Universal Jointing Consortium

Bulletin Number: UJCB030

25th October 2007

www.ujconsortium.com

Supplementary Training Kits

The UJ Consortium would like to clarify the use of Supplementary Training Kits, known as **SUP Kits**. These kits contain the requisite piece-parts to replace those expended during a training build, to enable another joint to be constructed from the same end specific kit. The piece-parts in a SUP Kit cannot be guaranteed to be of system quality and therefore must only be used for training purposes. The contents of a SUP Kit are clearly marked 'For Training Only' and have a red marking or label. If an End Specific Kit requires to be refurbished, please ensure that only piece-parts from a Ferrule Kit are used (UJC Bulletin 029 refers).
