30th June 2003

www.ujconsortium.com

Sumitomo Type 35SE-UJ/UC Splicer and Digital Printer

The UJ Consortium would like to remind its customers that when they are returning their Sumitomo Type 35SE-UJ/UC Splicers for re-calibration or maintenance, please ensure that the Digital Printer is also included as they are a matching pair and should be re-calibrated together.

If any of our customers are unsure which of their T-35SE-UJ/UC Splicers and Digital Printers are matching pairs, then a list is available on the UJ Consortium website at www.ujconsortium.com and it will also be included in the September 2003 issue of the UJ & UQJ Explorer CD-ROM. If you require any further assistance then please contact:

Ms Kaori Shikinaka at KDDI-SCS
