### PR-200, Polyimide Remover

On behalf of KCS, the UJ Consortium is pleased to announce the introduction of the PR-200.

The PR-200 provides a more effective method for the removal of the Polyimide coat on the OS pigtail fiber during a UC joint.

#### Summary of Features

- Applicable Fiber Type:  
Polyimide coated Silica Fiber
- Performance:  
Remove Polyimide coat by Arc-spattering for approx. 1mm length
- Dimension (mm):  
120(W) X 110(D) X 95 (H)
- Weight (g):  
950
- Power Requirement:  
DC 12V, 2A (applicable AC/DC adaptor)

#### Placing an Order

The PR-200 is now available to order.

---

### Video Graphic Printer - Model Change

The video graphic printer for the fusion splicer tool kit has changed from model UP895 to model UP897.

The new model UP897 is smaller (approx. 20% less volume) and lighter (3.4 kg to 2.6 kg) than the previous model. Its operation is similar to the old model and it continues to use the same printer paper. Instructions for use are provided with the equipment.

#### Placing an Order

The video graphic printer model UP897 is now available to order.
